Philippine Coat-of-Arms , 1905.

This is the original drawing made by Gaillard Hunt under Taft orders, the official Coat-of -Arms adopted later was a little bit different, the eagle had a different form... .

The Galliard Hunt's drawing was made in color, so the other one adopted later made by Tiffany's and Co.the famous american multinational jewelry and silverware corporation.

It's really happening: the solar panels on the White House are currently being

installed. The Obama administration has been tight-lipped about the details, but here's proof that workers have been on the rooftop, preparing 1600 Pennsylvania Ave. to harness the sun's energy.

Getting a New Gallery Ready.

The seven paintings by National Artist Vicente S. Manansala from the Philam Life Collection will undergo a thorough condition assessment this week before they are cleaned mechanically and scanned by optics scholars of the National Institute of Physics. In a month's time we may be able to open to the public this new gallery.

There is language going on out there - the language of the wild. Roars, snorts, trumpets, squeals, whoops, and chirps all have meaning derived over eons of expression ... We have yet to become fluent in the language - and music - of the wild.

A compassionate community will not be achieved only through prayer; I pray myself, but I accept its limitations. We need to take action to develop compassion, to create inner peace within ourselves and to share that inner peace with our family and friends. Peace and warm-heartedness can then spread through the community just as ripples radiate out across the water when you drop a pebble into a pond.
